WORK EXPERIENCE

HACKEREARTH | FULL STACK DEVELOPER INTERN

Bengaluru, India | Feb 2022 – July 2022

- Created and tested around 10+ Full-Stack and project questions in frameworks like **REACT** and **ANGULAR**.
- Evaluated problem statement solutions and the full stack project submitted as **HACKATHON**.
- Created around 10+ file upload question.

INSTASELL | SOFTWARE DEVELOPMENT ENGINEER INTERN

Bengaluru, India | Dec 2021 – Feb 2022

- Built the core InstaSell app for merchants to manage and grow their online businesses using **REACT** and **REACT NATIVE**.
- Worked on building features end to end with complete **Product Ownership**.
- Collaborated with senior engineers to identify the best solutions for problems and increased website and mobile app traffic by **25%**.

DEXTROPY | FULL-STACK ENGINEER INTERN

Remote, India | Feb 2021 – Nov 2021

- Managed Front-End and Back-End development from the scratch to **100% MVP**.
- Remained knowledgeable in new standards, technologies, and trends in website development, specially in **Angular**, **Dropwizard** and **MongoDB**.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.

SONGDEW | SOFTWARE DEVELOPMENT ENGINEER INTERN

Remote, India | Jun 2020 – Jan 2021

- Worked on an exciting project that integrates music videos evaluation process with the existing website.
- Built a fully automated web app that reduces the manual work of employees by **90%**.

EDUCATION

Bachelor of Technology in Computer Science

Alwar, India | Jun 2019 - May 2023 (Expected)

MODERN INSTITUTE OF TECHNOLOGY AND RESEARCH CENTRE

Coursework: Data Structures and Algorithms; Operating Systems;; Software Engineering; Computer Networking; Database Management, Object Oriented Programming **GPA - 3.7/4 or (9.2/10)**

PROJECTS

CODEBASKET™

REACT, AZURE, SQL

Produced a web application that allows a user to input code which is then executed in the browser. And Implemented a feature to share a CodeBasket™ using a shareable link.

Allow a user to set permission (editable, view only) for a CodeBasket™ while sharing the link.

ACTIVE CONTAINERS APP

FASTAPI, DOCKER, POSTGRESQL

Created a micro service that obtains information on active containers traveling on the sea. Used a simple REST API to query the crawled information. Used Docker to create a image of all the dependencies that are used.

For back-end, FastAPI is used as it made documentation part very easy.

GITHUB PROFILE FINDER APP

ANGULAR, FIREBASE

Produced a GitHub Profile viewer app which uses the GitHub free API to fetch user data and repository details based on search keyword. For authentication purpose, I have used Firebase, that basically stores data of user like email and encrypted password.

SKILLS

Languages: Java, JavaScript, C/C++, Python

Libraries/Frameworks: Angular, Django, React, Spring Boot, FastAPI

Tools / Platforms: Docker, GIT, Firebase, Docker, Azure

Databases: MongoDB, MySQL, PostgreSQL
