WORK EXPERIENCE

HACKEREARTH | Full Stack Developer Intern   Bengaluru, India | Feb 2022 – July 2022
- Developed and tested around **20** Full-Stack and project questions in frameworks like **REACT** and **ANGULAR** for the community of **6.5 million developers and professionals**.
- Evaluated problem statement solutions and the full stack project submitted as **HACKATHON** and prepared around **10** file upload question.

INSTASELL | Software Development Engineer Intern   Bengaluru, India | Dec 2021 – Feb 2022
- Built the core InstaSell app using **REACT** and **REACT NATIVE**. The product helps more than **120k+ users** to manage and grow their online businesses.
- Collaborated with senior engineers articulately to identify the best solutions for problems and increased website and mobile app traffic by **25%** and implementing features end to end with complete **Product Ownership**.

DEXTROPY | Full-Stack Engineer Intern   Remote, India | Feb 2021 – Nov 2021
- Helped to achieve a consistent look and visual theme across the website and building product from the scratch to **100% MVP**.
- Remained knowledgeable in new standards, 3 innovative technologies, and trends in website development, specially in **Angular**, **Dropwizard** and **MongoDB**.

SONGDEW | Software Development Engineer Intern   Remote, India | Jun 2020 – Jan 2021
- Worked on an exciting project that integrates music videos evaluation process with the existing website which is used by more than **30k artists**.
- Built a fully automated web app that reduces the manual work of employees by **90%**.

EDUCATION

Bachelor of Technology in Computer Science   Alwar, India | Jun 2019 - May 2023 (Expected)
MODERN INSTITUTE OF TECHNOLOGY AND RESEARCH CENTRE
Coursework: Data Structures and Algorithms; Operating Systems;; Software Engineering; Computer Networking; Database Management, Object Oriented Programming, Distributed Systems
GPA - 3.7/4 or (9.2/10)

PROJECTS

CODEBASKET™ ↗   React, Azure, SQL
Produced a web application that allows a user to input and collaborate code which is then executed in the browser. And Implemented a feature to share a CodeBasket™ using a shareable link.
Allow a user to set 2 permissions (editable, view only) for a CodeBasket™ while sharing the link.

ACTIVE CONTAINERS APP ↗   FastAPI, Docker, PostgreSQL
Created a micro service that obtains information on more than 500 active containers traveling on the sea. Implemented simple REST API to query the crawled information. For back-end, FastAPI is used as it made documentation part very easy.

GITHUB PROFILE FINDER APP ↗   Angular, Firebase
Produced a GitHub Profile viewer app which uses the GitHub free API to fetch user data and repository details based on search keyword. For authentication purpose, Firebase is storing data of user like email and encrypted password.

SKILLS

Languages: Java, JavaScript, C/C++, Python
Libraries/Frameworks: Angular, Django, React, Spring Boot, FastAPI
Tools / Platforms: Docker, GIT, Firebase, Docker, Azure
Databases: MongoDB, MySQL, PostgreSQL
Soft Skills: Problem Solving, MySQL, PostgreSQL
