EDUCATION

MODERN INSTITUTE OF TECHNOLOGY AND RESEARCH CENTRE   July 2019 - June 2023
Bachelors Computer Science   Rajasthan, India
GPA: 9.2

EXPERIENCE

HACKEREARTH | Full Stack PS Intern   Bengaluru, India | Feb 2022 – Apr 2022
- Created and tested around 10+ Full-Stack and project questions in frameworks like Angular, React, Django.
- Created around 10+ file upload questions
- Evaluated problem statement solutions and the full stack project submitted as hackathon work.

INSTASELL | Software Developer Intern   Bengaluru, India | Dec 2021 – Feb 2022
- Built the core InstaSell app for merchants to manage and grow their online businesses.
- Worked on building features end to end with complete ownership.
- Collaborated with senior engineers to identify the best solutions for problems.

DEXTROPY | Software Engineer Intern   Remote, India | Feb 2021 – Nov 2021
- Managed front-end and back-end development from the scratch to 100% MVP.
- Remained knowledgeable in new standards, technologies, and trends in website development.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.

SONGDEW | SDE Intern   Gurgaon, India | Jun 2020 – Jan 2021
- Worked on an exciting project that integrates music videos evaluation process with the existing website.
- Built a fully automated web app that reduces the manual work of employees by 80%.
- Effectively multi tasked and worked well with internal and external teams for making project a success.

SKILLS

Programming Languages	Java, JavaScript, C/C++, Python
Libraries/Frameworks	Angular, Django, React, Spring Boot, FastAPI
Tools / Platforms	Docker, GIT, Firebase, Docker
Databases	MongoDB, MySQL, PostgreSQL

PROJECTS / OPEN-SOURCE

GITHUB PROFILE FINDER APP | Link   Angular, Firebase
Build a GitHub Profile viewer app which uses the GitHub free API to fetch user data and repository details based on search keyword. For authentication purpose, I have used Firebase, that basically stores data of user like email and encrypted password.

ACTIVE CONTAINERS APP | Link   FastAPI, Docker, and PostgreSQL
In this task, I have created a micro service that obtains information on active containers traveling on the sea. Created a simple REST API to query the crawled information.
